

11TH INTERNATIONAL SCIENTIFIC CONFERENCE “SPECIAL EDUCATION AND REHABILITATION TODAY”

INVITATION TO THE 11TH INTERNATIONAL SCIENTIFIC CONFERENCE “SPECIAL EDUCATION AND REHABILITATION TODAY”

29th – 30th October 2021

FACULTY OF SPECIAL
EDUCATION AND REHABILITATION

Dear colleagues,

We would like to inform you that the 11th International Scientific Conference *Special Education and Rehabilitation Today*, organized by the University of Belgrade – Faculty of Special Education and Rehabilitation, will be held from 29th to 30th October 2021. The conference will be held online due to the existing epidemiological situation.

The main topic of the conference will be: *Achievements and Challenges in Special Education and Rehabilitation Today*. We invite you to share your scientific and practical knowledge, achievements and insights, as well as your observations of the challenges we are currently facing in the field of special education and rehabilitation. The COVID-19 pandemic has significantly affected daily lives of people with disabilities, their families, and professionals who need to adapt their usual working methods to new circumstances. In addition to the pandemic as a global challenge, we also highlight the proposal of the Education Development Strategy in the Republic of Serbia by 2030 as a very important topic for all professionals in the field of special education and rehabilitation, especially since it reviews the position of special educators in the education system. We would like to encourage the authors to consider the above mentioned, as well as other challenges we are currently facing in our scientific field and practice. Traditionally, we welcome papers in all areas of special education and rehabilitation, as well as related disciplines which deal with issues significant to this field.

The topic *Achievements and Challenges in Special Education and Rehabilitation Today* will be discussed in the following domains:

- health care
- education
- social care
- employment and work
- state response to crime and
- other areas of importance for special education and rehabilitation

The conference working languages will be Serbian and English.

11TH INTERNATIONAL SCIENTIFIC CONFERENCE “SPECIAL EDUCATION AND REHABILITATION TODAY”

We accept research papers, review papers, and case studies in the field of special education and rehabilitation, not previously published or presented at other conferences.

Forms of participation include oral presentations and poster presentations.
